

Time to halt the decline in our living standards

There has been a massive decline in the standard of living for Australians residing in regional Australia. It's time we did something about it.

Politicians are wasting your money

LABOR & LIBERAL SPENT \$55 BILLION ON THE NBN AND IT STILL DOESN'T WORK

Labor started the massive fifty-five thousand million dollars of spending on the NBN. What a huge waste of money. At the same time, there has been next to nothing from the government for farmers to feed their livestock during the

recent drought crisis that crippled their industry and their lives. It is clear that politicians don't care about us. Imagine the difference that money could have made to our schools, hospitals and the wellbeing of all Australians.

Stop the sell-off of our agricultural land to foreign powers

CHINESE GOVERNEMENT-OWNED COMPANIES OWN 10 TIMES MORE LAND THAN THEY DID IN 2016

How can we allow our national herds and pastoral and grazing properties to be sold off to foreign powers while our parliamentary representatives stand by and do nothing? Chinese Government-owned investment companies now own

well over ten times more of our agricultural land than they did just three short years ago. By any measurement, this is an alarming increase that should be concerning to all Australians.

End the destruction of the Murray-Darling Basin

WE NEED A FULL REVIEW OF OUR NATIONAL WATER MANAGEMENT POLICIES

I was disgusted to read the news of a million dead fish in the Darling River. The whole Murray-Darling Basin agreement must change and change now. NSW farmers even have to buy the water in their own dams and bans on

clearing have put lives in danger in Victoria and limited farm development in Queensland. The United Australia Party will put Australia first and that means putting you first.

Zonal taxation for our regions

DECENTRALISE AUSTRALIA. EASE THE STRAIN ON OUR CITIES AND INFRASTRUCTURE

Our capital cities are at breaking point. We need to decentralise this country and utilise our existing infrastructure in the regions. The United Australia Party will introduce zonal taxation where people and companies living 200 kilometres

from a state capital will pay 20% less tax. This will create real incentives for growth, investment and resettlement. In turn, this will ease the strain on existing infrastructure and population pressure in our cities.

Fast trains can revolutionise how we commute

LIFESTYLE, HOUSING AFFORDABILITY AND PRECIOUS FAMILY TIME

By introducing fast trains to travel, not between cities, but to the city from approximately 300 kilometres away, people can travel efficiently and be at work

in the CBD in around an hour. Families will be able to afford a real home and enjoy the lives they want.

Change how provisional tax is paid

RELEASE \$70 BILLION INTO OUR ECONOMY & TAKE THE PRESSURE OFF SMALL BUSINESSES

Provisional tax cripples many small businesses. By allowing small business and corporates to pay their provisional tax at the end of the year after they earned their money, instead of quarterly in advance, the United Australia

Party will release seventy-thousand-million dollars (\$70,000,000,000) into the Australian economy, creating demand, jobs and more jobs.

Insanity is doing the same thing over and over again while expecting a different result. Labor and Liberal just can't be trusted. Let's change it! Together we can achieve the extraordinary.
